The LED Sill Plate.

Our LED illuminated sill plates are the thinnest way for your brand to shine. We offer a durable, and sealed lighting solutions for sills that are built to withstand the wear and tear of everyday use.

THIN PLATES. ILLUMINATED.

Built With BoardFree Technology

Our illuminated sill is powered by our BoardFree® technology. Built without a circuit board that makes its over-molded design possible, we are able to offer one of the most durable and versatile lighting solutions for sill plates.

Assembly Example:

Co-extruded Backer Tub w/ RF Seal
