

RECYCLE

Counterweights

with Innviromass Technology

Features

- Weight ranges from 9.5lbs to 52lbs
- Thickness ranges from 0.4 to 1.0
- Length ranges from 7.0 to 38.0
- Secondary cutting operations available
- No slip glue strip
- Notched for easy installation

Our Capabilities

- Punching
- Milling
- Drilling

Innviromass Technology

- Low Cost
- 100% Recycled
- Custom Fit

The Eco-Friendly Counterweight.

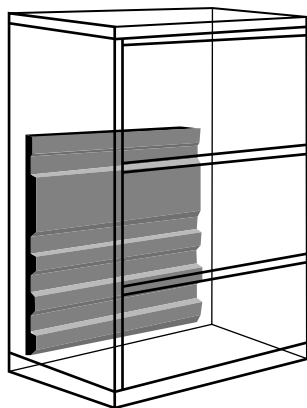

Innviromass™ provides custom, low-cost counterweight solutions for a broad range of markets. Utilizing 100% recycled materials, our counterweight is an eco-friendly option compared to lead and steel with prices that are much less volatile. Innviromass takes up less space while holding high density & heavy weight to keep you safe.

Applications

File Cabinets

Bookshelves

Dressers

Compliance

Our Innviromass counterweights have been a trusted solution for the commercial office industry since 2008. We help our clients achieve or exceed industry standards such as BIFMA & ASTM while reducing cost! With a low carbon footprint, these sheets can help you meet criteria for sustainability certifications, such as LEED and Envision, and comply with requirements for the STURDY act as well as meeting the guidelines of the Consumer Product Safety Commission (CPSC).
